CM75QT

The most common problem in hose production is incorrect cutting length. Finn-Power CM75QT has been designed to solve that problem. CM75QT eliminates human mistakes.

CM75QT quality table has been equipped with automatic servo motor based measuring device with extreme accuracy.

Fast measuring reduces the cutting cycle time dramatically and enables fast return on investment.

CM75QT is equipped with touch-control which enables connectivity and job queues.

CM75QT is also available as SAFE-model.
